Dear Member

Coronavirus (COVID-19) Update

I am writing to inform you that an Aspire member who attended the gym during the evening last week has tested positive for coronavirus. Following advice from Public Health England, the individual is self-isolating. Public Health England have confirmed that the gym can remain open as usual and we will continue to monitor the situation closely and update you should the situation change.

The Public Health England tracing team are aware and will only pro-actively contact you if you need to do anything different.

The gym is cleaned thoroughly each day but we would ask that gym members continue to follow the necessary precautions regarding safe hygiene practice through hand washing, using tissues to catch sneezes and coughs, trying not to touch your face without washed hands and avoiding the sharing of cups and bottles etc. Further, up-to-date advice can be found at www.gov.uk/coronavirus

We would also ask that members returning from overseas should follow the government advice relating to specific countries and areas identified on the government website: <https://www.gov.uk/guidance/coronavirus-covid-19-information-for-the-public#returning-travellers>

We will, of course, continue to follow all guidelines issued by Public Health England and provide you with all appropriate updates.

Yours sincerely
