

October 2021

Dear Parent/Carer

Completion of D of E Bronze Award

Congratulations to all students who completed the Bronze assessed expedition walk last weekend, as part of their Bronze Award. All the expedition assessors were satisfied with students' navigation skills and camp craft, resulting in all students passing the expedition element of the award. Details of the expedition have now been uploaded onto students' eDofE profile; we are awaiting some of the assessors' reports, which will be uploaded in due course.

It is now important that students ensure their skills, volunteering and physical sections are completed. For each section students need to ensure their assessor reports are completed. Students need to provide their assessors with this link: <https://www.dofe.org/assessor/>, along with their DofE participant number, the section being assessed (physical, volunteering or skill) and the dates the section was started and completed (they must match up to what you have put or it will be send back from County). Students have had a number of reminders of this via Google Classroom.

Students should complete the remaining sections by 12 November 2021.

Well done to students (and parents who helped with their preparation and transportation!) for their participation in a highly successful weekend - we look forward to final completion of your Bronze Award!

Yours sincerely

Miss C Richardson
D of E Assistant
