

ASHLYNS SCHOOL

June 2022

Dear Parent/Carer

School Values

We are currently reviewing our school values to ensure they not only accurately reflect the key principles at the heart of everything we do but are also memorable for the school community. Our current values are as follows:

Aspiration, Society, Pride, Inclusion, Respect, Excellence

Moving forward, we would like to refocus on a core group of three values that captures our school ethos; we know from educational research that this sharply-focused approach has a beneficial impact upon a school community with the shared values becoming a cornerstone. To this end, we are seeking the views of our key stakeholders: students, parents/carers, staff and governors.

We would be grateful if you could spend a few minutes completing the online form, via the link below, to let us know which are the most important values that you wish your child/children to display and experience:

[School Values Form](#)

Once we have the data from all stakeholders we will identify the reframed, core set of values, which will be communicated at the start of the next academic year.

Thank you for your support and input.

Yours sincerely

Mr D Beattie
Deputy Headteacher
