

February 2024

Dear Parent/Carer

## **Year 12 UCAS and Careers Information Evening**

We will be holding a UCAS and Careers Information Evening for Year 12 students and their parents/carers on Tuesday 27 February from 18.15 -19.15 in the Chapel. There will be a presentation from the University of Birmingham who will give an overview of the UCAS process, as well as information and advice on student loans, grants and bursaries. Our Careers Adviser, Chloe Lewis, will also present, and will offer guidance on vocational courses, degree apprenticeships, careers and work experience.

**A number of our Year 12 students will also be presenting their Independent Research Projects during this evening from 17.50 in the Sixth Form Centre.** The students worked enthusiastically and independently on a subject of their own choosing and, although we are unable to exhibit all of the projects, hopefully this will allow you to get a flavour of what has been achieved as part of the Sixth Form Enrichment Programme.

Our Year 13 students will also be present at this event to sell refreshments to raise funds for the Wamba Community Trust in Kenya, which exists to promote the health and education of children and young people in Wamba.

We pride ourselves on offering students and parents appropriate information, advice and guidance, and strongly recommend that you attend this important event.

Yours sincerely

Ms K Gaches  
Head of Sixth Form
