

March 2026

Dear Parent/Carer

Careers in STEM (Science, Technology, Engineerings and Maths)

On Wednesday 22 April we are hosting an engineering careers talk for students in Year 8. This event will take place in the LRC for one hour from 11.20am-12.20pm (P3).

The talk will focus on geotechnical engineering which is a specialist branch of civil engineering concerned with the behaviour of earth materials and the application of soil and rock mechanics. Our speaker has many years of experience within the industry and will be providing an insight into the skills and qualities needed to succeed in the profession along with an activity designed to give students first-hand experience of engineering principles.

If your child is interested in exploring a STEM career, please complete the form [here](#) to register your interest by Friday 20 March. Should the event be oversubscribed then we will allocate places via a ballot. An email will be sent nearer the time confirming the allocation of a place and the event arrangements.

Yours sincerely

Ms N Gunton
Head of Science

Ms R Lambert
Careers Leader
